ACTIVITY PROPOSAL

Division/Section/Unit:	CID-IPED and SGOD-Planning & Research	Date Prepared:	Aug. 20, 2024
Title of the Activity:	Training-Workshop on Database Management of Indigenous Peoples Education Program Implementation for School Heads		
Type:	<input type="radio"/> Joint/Central Led	<input type="radio"/> Region Led	<input checked="" type="radio"/> Division Led
Rationale/Context: During the Data Management and Information Training Workshop (DMIT) held last November 2023 at General Santos City, the Planning Service-EMISD they have introduced system enhancements in the Learner Information System and Basic Education Information System. These system enhancements are crucial for efficiently operationalizing data management in the Division Office, schools, and learning centers, particularly in implementing the Indigenous Peoples Education (IPED) program. Part of implementing the IPED program is the real time monitoring of the population of IP enrollees in the SDO including the programs, projects, and activities (PPAs) conducted by the schools. Innovations in the database management of IP data are needed for the efficient data collection, interpretation, analysis, and dissemination for the crafting of PPAs, hence this training workshop was proposed.			
Strategic Objectives: All School Heads will be trained on the implementation of the LIS/BEIS enhancements particularly for the IPED program implementation. Specific objectives are the following: Objectives: a. to review the performance of the IPED program vis-à-vis the LIS/BEIS in SY 2022-2023 and the Beginning of School Year 2023-2024. b. to empower the School Heads on the enhancements implemented by the Planning Service-EMISD and IPED Program Implementors in terms of data collection, interpretation, analysis, and dissemination; and c. to provide technical assistance to the School Heads in the implementation of the system enhancements and database management techniques.
