No. 0122 s. 2025

**PREVENTION AND MITIGATION OF DENGUE CASES IN SCHOOLS**

To: **BASILIO P. MANA-AY JR., CESO VI**  
Assistant Schools Division Superintendent  
**AILENE B. AÑONUEVO PhD**  
Chief of the Schools Governance and Operations Division (SGOD)  
**JANWARIO E. YAMOTA**  
Chief of the Curriculum Implementation Division (CID)  
**All Elementary and Secondary School Heads**  
**All Concerned**

1. Attached is the letter from the City Health Office signed by Algae Rose A. Sumaoang-Hechanova, MD, City Health Officer II, dated May 22, 2024, on the mitigation and prevention of Dengue Cases. It has been found out that unused and unattended tires found in the schools are one of the sources of breeding sites of mosquitoes' carrier of dengue virus.
2. With this, all schools are instructed to remove any unused tires and to regularly empty stagnant water from containers such as flower vases and similar items.
3. For your guidance and compliance.

For and in the absence of the SDS:

  
**BASILIO P. MANA-AY JR. CESO VI**  
Assistant Schools Division Superintendent  
Officer In Charge

Dear **Doctor Firman**,

Greetings of Good Health!

Aligned to the continuous prevention and mitigation of Dengue Cases, the Environmental Health and Sanitation Section of the City health Office conducted ocular inspections to public schools in Panabo City.

We would like to inform your office that we have found out that one of the source of breeding sites of mosquitoes carrier of dengue virus are unused and unattended tires and containers for school gardening projects.

In line with this, may we request to remove unused and unattended tires and containers as source of breeding sites of dengue vectors. This is to have a clean and safe environment to prevent and mitigate increasing cases of dengue in the city.

Hoping for your favourable response on this matter.

Sincerely yours,

**ALGAE ROSE A. SUMAOANG-HECHANOVa, MD**  
City Health Officer II
