Subject: Proposal for Collaboration in ROBOLUTION ERA – Electronics, Robotics, and AI Literacy Program for ALS in Partnership with Programa Genio

Dear Sir/ Madam:

Greetings from Erovoutika!

We, at Erovoutika Robotics & Automation Solutions, are deeply committed to equipping learners with essential 21st-century skills that bridge education, technology, and innovation. In line with this, we would like to propose a collaborative program between ALS Davao and Programa Genio, under the theme **“Robolution ERA Program – Electronics, Robotics, and AI Literacy Program for ALS.”** This initiative is designed to support **2 batches of 200 ALS learners scheduled on September 24 & 25, 2025** by providing access to hands-on training and innovative learning experiences. The program aims to:

1. Enhance Digital Literacy – Equip learners with practical computer and internet skills to prepare them for future opportunities.
2. Introduce Electronics, Robotics & AI Concepts – Provide foundational knowledge in electronics, robotics, and artificial intelligence through interactive activities, fostering creativity, innovation, and problem-solving.
3. Promote Inclusive Education – Ensure that out-of-school youth and adult learners gain access to relevant skills aligned with global workforce demands.
4. Build Lifelong Skills – Develop both technical and critical-thinking abilities that can be applied in higher education, entrepreneurship, and employment.

To support this program, Erovoutika will sponsor and provide “pahiram kits” (loaner kits) which will be used by learners during the training sessions. These include robotics and electronics kits designed for hands-on practice, ensuring that all participants will have access to the necessary tools throughout the program. Together, we can empower ALS learners in Davao with the tools they need to thrive in the digital age. We would be glad to schedule a meeting at your convenience to discuss the program in detail.

Thank you very much, and we look forward to your positive response.
