## ❖ SUDOKO COMPETITION

There will be three elimination rounds:

### Round 1 - EASY ROUND (15 minutes)

Each contestant will solve one SuDOKu Easy Level. Only the top 7 contestants can proceed to Round 2. No tie breaker in case of tie.

### Round 2 - AVERAGE ROUND (30 minutes)

The top 7 will solve one SuDOKu Average Level. Only the top 5 contestants can proceed to Round 3. No tie breaker in case of tie.

### Round 3 - DIFFICULT ROUND (40 minutes)

The top 5 contestants will solve only one SuDOKu Difficult Level. Each contestant will be ranked according to the time consumed in the puzzle. Only the Top 3 shall be declared as winners.

The SuDOKu grid will be provided during the contest proper by the Regional Math Olympics Committee.

The time starts immediately after the contest administrator announces the GO Signal.

The contestants shall immediately submit their solved SuDOKu and the contest administrator will record the time consumed for each contestant. Once recorded, submitted answered Sudoku will be considered final and the contestant is not allowed to make any further changes.

The time keeper says "STOP" as the time allotted to solve the puzzle in each round expires. Contestants who failed to solve the puzzle within the given time must submit their output to the contest administrator right after the STOP signal has been announced.

Puzzles with the wrong solution but submitted ahead of the time limit and puzzles that remain unsolved after the time limit expires will all be subject to a point system. The point system shall be done by checking the number of entries in each blank cell of the puzzle and counting the number of correct answers. Each correct in the box corresponds to one point. The point system shall only be applied to fill in vacant slots of qualifiers for the next round. Contestants with higher points will complete the list of qualifiers.

The SuDOKu puzzle is said to be solved after filling all the sub grids, each with the numbers 1 to 9 in proper arrangements. Each row and column contains the numbers 1 to 9.

Numbers written whether in pencil or ball pen and in whatever sizes shall be deemed final and constitute an answer of the puzzle grids. Each box must have only one number entry. Erasures are allowed as long as the final answer is clear and will not confuse the checker.

Winners will be determined through the consumed time in solving the SuDOKu puzzle or/ and by a point system. Any contestant who has consumed the least time in solving the puzzle in the final round will be declared the winner. In case when no top 3 finishers have been declared before the time limit in the final round, the point system will determine the winners. In case of a tie in the final round, tie-breaker will be done through the following:

- least sum of ranks in three rounds between contestants involved in the tie.
- cumulative time recorded after three rounds (non-time-beater contestant in a round will use the time limit as his/her recorded time plus 5 seconds for every incorrect data entry)

The decision of the contest administrator/s is official and final.
